OUR SERVICES //

WE DO SCAFFOLDING
IN CREATIVE WAY....

Formwork in concrete construction is used as a mould for a structure in which fresh concrete is poured only to harden subsequently. Types of formwork for concrete construction depends on formwork material and type of structural element.

We Provide following Services:

- Foundation Formwork
- Ceiling Formwork (Vertical Section)
- Beam Formwork

FORM WORK

MAST CLIMBER

Saflink is a full-service scaffold company. With the resources throughout Singapore at your disposal, you will have the ideas mast climber to efficiently elevate your personnel, materials and tools to any position for building facade work.
